

Simplify Healthcare Scheduling & Compliance

Automate scheduling, reduce compliance risk, and gain real-time visibility—built for nursing homes, private duty, and healthcare organizations.

The Challenge

Healthcare organizations face mounting pressure to staff efficiently—without burning out teams or busting budgets.

40%

Still rely on pen-and-paper scheduling—**causing costly inefficiencies and errors.**

85%

Report critical staffing shortages, driving up overtime and burnout.

25%

Of healthcare workers leave due to inflexible, poorly managed schedules.

\$50,000+

in fines per infraction from PBJ and labor compliance violations.

The cost of doing nothing is too high.

Our Solution

PrimeSchedules is a cloud-based scheduling platform purpose-built for healthcare—aligned to your staffing, financial, and compliance needs.

Reduce Overtime & Burnout

Optimize schedules and prevent overages.

Automate Admin Task

Eliminate manual errors and redundant scheduling workflows.

Stay Fully Compliant

Built-in reporting ensures PBJ, EVV, and labor regulation readiness.

Fill Open Shifts with Ease

Auto-match open shifts with the best-fit, available staff based on role, rating, credentials, and preferences.

Make Real-Time Changes

Empower managers and staff with mobile-first access and instant notifications.

Key Features

Shift & Scheduling Management

Auto-scheduling, shift bidding, open shift auto-fill, self-service swaps.

Compliance & Reporting

PBJ, EVV, department-level insights, CMI tracking, financial forecasting.

Communication & Mobile Tools

Instant alerts, team messaging, shift reminders, mobile-first interface.

Advanced Analytics & Recognition

Dashboards, credential tracking, surveys, and staff recognition programs.

Integrations Made Easy

Connect to Payroll, HR, Finance, and EMR systems via open APIs.

Designed for All Care Environments & Departments

PrimeSchedules is built to support the full range of healthcare operations—from clinical to security, dining to facilities—with unified visibility, smarter workflows, and budget-aligned staffing across every team.

Whether you're managing a nursing home, private duty agency, hospital, or assisted living facility, PrimeSchedules gives you a better, more efficient way to manage staffing across your organization.

Return on Investment

20–30 hours/week

saved on scheduling
(creating/changing) & reporting

30–40% reduction

in admin workload and
manual task time

\$30K–\$50K/year

reclaimed in avoidable
operational costs

Turn inefficiency into opportunity—instantly.

Day 1 ROI: Accountable, On-Time Staff

- When schedules are automated and real-time updates are in place, staff show up on time—with no confusion, no excuses.
- This operational clarity means better coverage, fewer last-minute scrambles, and immediate gains in productivity.
- From Day 1, PrimeSchedules delivers ROI by holding teams accountable, improving attendance, and giving leadership full visibility into who's scheduled, who showed up, and why.
